EQUINOR EXITS BAKKEN SHALE WITH \$900MM SALE TO GRAYSON MILL ENERGY

FEBRUARY 10, 2021 | Grayson Mill Energy

Equinor has agreed to divest its interests in the Bakken field in the US states of North Dakota and Montana to Grayson Mill Energy, backed by EnCap Investments, for a total consideration of around USD \$900 million.

The transaction covers all of Equinor's operated and non-operated acreage, totaling 242,000 net acres, and associated midstream assets in the Bakken. Entitlement production from these assets in 4Q 2020 was 48,000 barrels of oil equivalent per day (net of royalty interests). In parallel with this transaction, Equinor Marketing and Trading will enter into a term purchase agreement for crude offtake with Grayson Mill Energy.
