

ENCAP ENERGY CAPITAL FUND VII-B, L.P. AND SUBSIDIARY
CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021

Report of Independent Auditors

To the General Partner of EnCap Energy Capital Fund VII-B, L.P.

Opinion

We have audited the accompanying consolidated financial statements of EnCap Energy Capital Fund VII-B, L.P. and its subsidiary (the "Partnership"), which comprise the consolidated statement of assets, liabilities and partners' capital as of December 31, 2021, and the related consolidated statements of operations, of changes in partners' capital and of cash flows, including the related notes for the year then ended (collectively referred to as the "consolidated financial statements").

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Partnership as of December 31, 2021, and the results of its operations, changes in its partners' capital and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the Partnership and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Partnership's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Partnership's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Partnership's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

ENCAP ENERGY CAPITAL FUND VII-B, L.P. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – ORGANIZATION:

EnCap Energy Capital Fund VII-B, L.P. (the “Partnership”), a Texas limited partnership, was formed on June 22, 2007 to provide its partners with an opportunity to participate as a limited partner in EnCap Energy Capital Fund VII, L.P. (“Fund VII”), a Texas limited partnership. Fund VII was formed on June 22, 2007 to invest in privately negotiated equity and equity-related investments in the upstream and midstream independent oil and gas sector of North America. The Partnership operates pursuant to an Amended and Restated Agreement of Limited Partnership (the “Partnership Agreement”) dated March 31, 2009, which should be referred to for a complete description of the provisions of the Partnership. EnCap Equity Fund VII GP, L.P. (“General Partner”), a Texas limited partnership, is the sole general partner for the Partnership and the general partner of Fund VII. The General Partner does not own an economic interest in the Partnership.

There are 63 investors owning the limited partnership interests (“Limited Partners”) in the Partnership. The Limited Partners’ total capital commitments to the Partnership are \$490.5 million. There were no remaining commitments outstanding by the Partners to the Partnership.

EnCap VII-B Acquisitions, Inc. (“Fund VII-B Inc.”), a wholly-owned subsidiary of the Partnership, was formed on August 31, 2007 for the purpose of being a limited partner of and holding record title to the limited partner interest in Fund VII. As a limited partner in Fund VII, the Partnership through Fund VII-B Inc. indirectly invests in all corresponding investments in Fund VII and receives a proportionate amount of investment income, gains (losses) and expenses equal to its relative contribution of capital as pursuant to the Fund VII partnership agreement. The financial statements of Fund VII, including the Schedule of Investments, are attached to this report and should be read with the Partnership’s financial statements. The Partnership’s consolidated funded ownership interest in Fund VII is 19.22564%.

The Partnership was to be dissolved upon the expiration of a 10-year period ending July 31, 2017. On July 28, 2017, the Partnership Agreement was amended to extend the life of the Partnership until December 31, 2018. The amendment was approved by greater than 80% of the Limited Partners. As of December 31, 2018, Fund VII began the process of selling all remaining investments and winding down operations, in accordance with the amended Partnership Agreement. Due to recent market conditions, the Partnership is expected to be completely wound down in 2022.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America (“GAAP”), and include the accounts of Fund VII-B Inc. The Partnership is considered an investment company under GAAP and follows the accounting and reporting guidance applicable to investment companies in the Financial Accounting Standards Board Accounting Codification (“ASC”) 946, Financial Services – Investment Companies.

Consolidation

Fund VII-B, Inc. is included in the accounts of the Partnership. All intercompany balances and transactions have been eliminated from the consolidated financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the General Partner to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of

ENCAP ENERGY CAPITAL FUND VII-B, L.P. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results, including the ultimate amount realized upon the sale of illiquid and/or fair valued investments, can, and often do, differ from those estimates.

Investment valuation and transactions

The Financial Standards Accounting Board ("FASB") guidance "Fair Value Measures," establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the guidance are as follows:

Level 1 Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Partnership has the ability to access at the measurement date;

Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active;

Level 3 Prices, inputs or modeling techniques which are both significant to the fair value measurement and unobservable (supported by little or no marked activity).

As of December 31, 2021, the investment in Fund VII is excluded from the fair value hierarchy leveling as the fair value of the investment was measured at net asset value ("NAV") using the practical expedient. Fund VII's valuation policies are discussed in Note 2 of the Fund VII financial statements attached to this report.

Concentration of Risk

As the Partnership's investments are primarily in the domestic independent oil and gas sector, revenue and profitability are dependent upon numerous factors beyond the Partnership's control, such as economic and political developments in the industry and competition from other sources of energy. The energy markets have historically been very volatile and there can be no assurance that oil and gas prices will not be subject to wide fluctuations in the future. A substantial or extended decline in oil and gas prices could have a material adverse effect on the Partnership's financial position, results of operations and cash flows.

Fund VII's investment program requires a moderate amount of diversification among its portfolio companies. Under the Partnership Agreement, Fund VII may not invest more than 15% of total commitments in any one portfolio company without consent of at least 80% of its limited partners. This policy may subject Fund VII to greater volatility than would usually be present in a more diversified portfolio, inasmuch as poor performance with respect to any one investment by the Fund VII may expose it to a greater degree of loss than would be the case with a more broadly diversified investment program.

Most of the total commitment will be invested through Fund VII in privately negotiated equity and equity-related investments. Generally, there is no readily available market for such investments and, as such, Fund VII might take longer to liquidate these positions than would be the case for investments in publicly traded securities. Although these securities may be resold in privately negotiated transactions, the prices on these sales could be less than those originally paid by Fund VII. Also, issuers whose securities are not publicly traded may not be subject to public disclosure and other investor protection requirements applicable to publicly traded securities. In addition, the issuers of such privately negotiated securities are companies which typically have limited capitalization and limited operating histories, companies operating at a loss or with significant variations in operating results from period to period, companies which may need substantial additional capital to support operations and growth, and companies which may be highly leveraged. By their nature, such investments possess a high degree of business and financial risk that may result in substantial losses.

ENCAP ENERGY CAPITAL FUND VII-B, L.P. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Cash and Cash Equivalents

Cash and cash equivalents consist of demand deposits and cash held in Fidelity Investments Money Market Funds Treasury Portfolio – Class I (“Fidelity money market account”), a money market fund which contains investments with weighted average maturities of three months or less. As of December 31, 2021, the Partnership has cash in its Fidelity money market account of \$516,522. The Partnership places its cash and cash equivalents with financial institutions and, at times, cash held in bank accounts may exceed the Federal Deposit Insurance Corporation insured limit. Cash and cash equivalents are classified as Level 1 assets and are carried at cost or amortized cost which approximates fair value.

Income and Expense

Income and expenses from the Partnership's general operations are recognized on the accrual basis.

Gains or Losses on Investments

Realized gains and losses on investments represent the difference between the pro-rata allocation of Fund VII's original cost of the investments and the related fair value at the sale or distribution date, net of expenses, as well as write-offs. The difference between the original cost and the estimated fair value of investments, including any receivable for holdbacks, owned at the end of the period represents unrealized gains or losses.

Foreign Currency

Portfolio investments denominated in foreign currencies are translated into U.S. dollar amounts at period end. Purchases and sales of portfolio investments denominated in foreign currencies are translated into U.S. dollar amounts on the respective acquisition or disposition dates of such transactions.

Income Taxes

The Partnership's consolidated financial statements include provisions for income tax expense and income taxes payable by its subsidiary, Fund VII-B Inc. In accordance with FASB guidance “Income Taxes”, Fund VII-B Inc. provides for all income taxes payable and for deferred taxes arising from temporary differences between the book and tax bases of assets and liabilities using enacted tax rates and laws in effect in the years in which differences are expected to reverse. Income taxes paid and payable by Fund VII-B Inc. are allocated to the Partners based on their respective sharing percentages in effect at the time the respective expense or benefit is incurred. A valuation allowance is recognized for deferred tax assets if it is more likely than not that some or all of the deferred tax asset will not be realized.

The Partnership is not subject to income taxation, the tax effects of its activities accrue to the individual partners. The Partnership's tax returns are subject to examination by federal and state taxing authorities. As of December 31, 2021, the earliest tax year that remains subject to examination under the standard limitation period is 2018. Pursuant to the Bipartisan Budget Act of 2015, for tax years beginning after December 31, 2017, if the IRS makes audit adjustments to the Partnership's income tax returns, it (and some states) may assess and collect any taxes (including any applicable penalties and interest) resulting from such audit adjustments directly from the Partnership. To the extent possible under the new rules, the Partnership's general partner may elect to either pay the taxes (including any applicable penalties and interest) directly to the IRS or, if eligible, issue a revised information statement to each current limited partner and former limited partner with respect to an audited and adjusted return. Although the Partnership's general partner may elect to have the limited partners take such audit adjustment into account and pay any resulting taxes (including applicable penalties or interest) in accordance with their interests in the Partnership during the tax year under audit, there can be no assurance that such election will be practical, permissible or effective in all circumstances. As a result, current limited partners may bear some or all of the tax liability resulting from such audit adjustment, even if such limited partners did not own an

ENCAP ENERGY CAPITAL FUND VII-B, L.P. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

interest in the Partnership during the tax year under audit. If, as a result of any such audit adjustment, the Partnership is required to make payments of taxes, penalties and interest, the cash available for distribution to our limited partners might be substantially reduced. These rules are not applicable for tax years beginning on or prior to December 31, 2017.

The General Partner is required to determine whether a tax position of the Partnership is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement which could result in the Partnership recording a tax liability that would reduce partners' capital. Based on the General Partner's analysis, there are no material disclosures or adjustments impacting the Partnership's financial statements as of December 31, 2021. The Partnership does not expect that its assessment regarding unrecognized tax benefits will materially change over the next twelve months. However, the General Partner's conclusions may be subject to review and adjustment at a later date based on on-going analyses of tax laws, regulations and interpretations thereof and other factors.

NOTE 3 – ALLOCATIONS TO PARTNERS:

The Partnership agreement provides that net increase (decrease) in partners' capital resulting from operations associated with the Partnership is allocated 100% to the Limited Partners on a pro-rata basis.

NOTE 4 – TRANSACTIONS WITH RELATED PARTIES:

During the year ended December 31, 2021, the Partnership reimbursed EnCap Investments L.P. ("EnCap"), an affiliate of the Partnership, \$113,506 for general and administrative expenses. At December 31, 2021, the Partnership owed \$12,256 to EnCap for general and administrative expenses.

NOTE 5 – INCOME TAXES:

The Partnership, in consolidating Fund VII-B Inc., recorded an income tax benefit of \$90,483 during the year ended December 31, 2021. Set forth below is reconciliation between taxes on income subject to taxation computed at the Federal statutory rate of 21% and the Partnership's reported provision for income taxes:

	December 31, 2021
Income before income taxes	\$ 14,278,341
Nontaxable partnership loss	(14,774,681)
Income subject to taxation	<u>\$ (496,340)</u>
Income taxes on above at statutory rate	\$ (104,231)
State taxes	2,001,296
Valuation allowance	(1,688,059)
Other	(80,957)
Provision to return	(218,532)
Income Taxes	<u>\$ (90,483)</u>

ENCAP ENERGY CAPITAL FUND VII-B, L.P. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The following table reflects the components of income tax benefit included in income from continuing operations:

	<u>December 31,</u> <u>2021</u>
Current	
Federal	\$ -
State	<u>(90,483)</u>
Total Current	<u>(90,483)</u>
Deferred	
Federal	-
State	<u>-</u>
Total Deferred	<u>-</u>
Total income taxes	<u>\$ (90,483)</u>

The Partnership has recorded a net deferred tax asset of approximately \$9,524,935 during the tax year ended December 31, 2021, primarily related to net operating loss carryforwards and deferred interest deductions. The Partnership has \$68,793,803 of federal net operating loss carryforwards as of December 31, 2021, and state net operating loss carryforwards of \$44,935,556 that expire beginning in 2024. As a result of The Tax Reform Act, federal net operating losses and certain state net operating losses generated in tax years beginning after December 31, 2017, can be carried forward indefinitely. The Partnership has a general business tax credit of \$26,350 that expires beginning in 2031. Realization of deferred tax assets associated with net operating loss carryforwards is dependent upon generating sufficient taxable income prior to their expiration. Management believes that the weight of available evidence suggests that it is more likely than not that the deferred tax asset will not be realized as of December 31, 2021 and have provided a full valuation allowance against the deferred tax asset.

The Partnership's deferred tax asset is comprised of the following:

	<u>December 31,</u> <u>2021</u>
Net operating loss carryforwards	\$ 15,622,292
General business tax credit	26,350
Deferred interest deductions and other	389,700
Valuation allowance	<u>(9,524,935)</u>
Deferred tax asset	6,513,407
Book versus tax basis difference	
in investments	<u>(6,513,407)</u>
Deferred tax liability	<u>(6,513,407)</u>
Net deferred tax asset/(liability)	<u>-</u>

As of December 31, 2021, the Partnership has examined all material federal and state tax positions for all open tax years and is not aware of any uncertain tax positions requiring adjustments to the tax liability. If applicable, we will record to the income tax provision any interest and penalties related to unrecognized tax positions. Fund VII B Inc.'s U.S. federal tax return for the year ending December 31, 2019 is currently

ENCAP ENERGY CAPITAL FUND VII-B, L.P. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

under IRS examination. The IRS is reviewing the minimum tax credit carryforward from the 2019 tax year. No changes have been proposed at this time.

NOTE 6 – FINANCIAL HIGHLIGHTS:

The following financial highlights for the year ended December 31, 2021, have been calculated in accordance with guidance provided in Accounting Standards Codification 946, “Financial Services – Investment Companies”:

Net investment income ratio	<u>9.4%</u>
Expense ratios:	
Expenses	0.7%
Unrealized incentive allocation	<u>19.6%</u>
Expenses including unrealized incentive allocation ratio	<u>20.3%</u>
Internal rate of return net of incentive allocation (Inception to December 31, 2021)	<u>11.6%</u>
Internal rate of return net of incentive allocation (Inception to December 31, 2020)	<u>11.2%</u>

The net investment income and expense ratios are calculated for the Limited Partners taken as a whole. The net investment income and expenses ratios do not reflect the effects of the incentive allocation to the General Partner. The expenses ratio includes expenses allocated from Fund VII and the impact of the income tax provision. The internal rate of return from inception is calculated based on the actual dates of the cash inflows and outflows and the residual value of the Limited Partners' capital account, net of all incentive allocations, as of each measurement date. Future realization of investments may be at different values than currently carried fair values, resulting in rates of return that may differ materially from that indicated above.

NOTE 7 – CONTINGENCIES:

The Partnership's investments are subject to legal proceedings, claims, and litigation arising in the ordinary course of business. Each investee defends itself vigorously against any such claims. Although the outcome of these matters is currently not determinable, the General Partner does not expect that the ultimate costs to resolve these matters will have a material adverse effect on its financial position, results of operations, or cash flows.

NOTE 8 – SUBSEQUENT EVENTS:

The Partnership has evaluated subsequent events for potential recognition and/or disclosure through March 31, 2022, the date these financial statements were available for issuance, and determined that no events warrant further disclosure.

ENCAP ENERGY CAPITAL FUND VII, L.P.

FINANCIAL STATEMENTS

DECEMBER 31, 2021

Report of Independent Auditors

To the General Partner of EnCap Energy Capital Fund VII, L.P.

Opinion

We have audited the accompanying financial statements of EnCap Energy Capital Fund VII, L.P. (the "Partnership"), which comprise the statement of assets, liabilities and partners' capital, including the schedule of investments, as of December 31, 2021, and the related statements of operations, of changes in partners' capital and of cash flows, including the related notes for the year then ended (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Partnership as of December 31, 2021, and the results of its operations, changes in its partners' capital and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Partnership and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Partnership's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Partnership's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Partnership's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

ENCAP ENERGY CAPITAL FUND VII, L.P.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 – ORGANIZATION:

EnCap Energy Capital Fund VII, L.P. (the “Partnership”), a Texas limited partnership, was formed on June 22, 2007 to provide its partners with an opportunity to participate in privately negotiated equity and equity-related investments in the upstream and midstream independent oil and gas sector of North America. The Partnership operates pursuant to an Amended and Restated Agreement of Limited Partnership (the “Partnership Agreement”) dated March 31, 2009, which should be referred to for a complete description of the provisions of the Partnership. EnCap Equity Fund VII GP, L.P. (“General Partner”), a Texas limited partnership, is the sole general partner for the Partnership. There are 142 investors owning the limited partnership interests (“Limited Partners”, and collectively with the General Partner, the “Partners”). The General Partner’s and Limited Partners’ total capital commitments to the Partnership are \$51 million and \$2,500 million, respectively. There were no remaining commitments outstanding by the Partners to the Partnership or by the Partnership to portfolio companies.

EnCap Energy Capital Fund VII-B, L.P. (the “Feeder”), an affiliated fund, is an investor in the Partnership. The Feeder’s ownership in the Partnership’s capital is 19.225641%.

The Partnership was to be dissolved upon the expiration of a 10-year period ending July 31, 2017. On July 28, 2017 the Partnership Agreement was amended to extend the life of the Partnership until December 31, 2018. The amendment was approved by greater than 80% of the Limited Partners. As of December 31, 2018 the Partnership began the process of selling all remaining investments and winding down operations, in accordance with the amended Partnership Agreement. Due to recent market conditions, the Partnership is expected to be completely wound down in 2022.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America (“GAAP”). The Partnership is considered an investment company under GAAP and follows the accounting and reporting guidance applicable to investment companies in the Financial Accounting Standards Board Accounting Codification (“ASC”) 946, Financial Services – Investment Companies.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the General Partner to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results, including the ultimate amount realized upon the sale of illiquid and/or fair valued investments, can, and often do, differ from those estimates.

Investment valuation and transactions

The Financial Standards Accounting Board (“FASB”) guidance “Fair Value Measures,” establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the guidance are as follows:

- Level 1 Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Partnership has the ability to access at the measurement date;

ENCAP ENERGY CAPITAL FUND VII, L.P.

NOTES TO FINANCIAL STATEMENTS

Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active;

Level 3 Prices, inputs or modeling techniques which are both significant to the fair value measurement and unobservable (supported by little or no marked activity).

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. An investment's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the General Partner. The General Partner considers observable data to be market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by multiple independent sources that are actively involved in the relevant market. The categorization of an investment within the hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to the General Partner's perceived risk of that investment.

Partnership investments are valued quarterly by the General Partner. Investment cost and the net realized gains or losses thereon are determined, for financial accounting purposes, on the specific identification method. The Partnership's investments that have been classified within level 3 utilize significant unobservable inputs and trade infrequently, or not at all. Level 3 investments may include common and preferred equity securities, corporate debt, warrants and other privately issued securities. When observable prices are not available for these securities, the General Partner uses one or more valuation techniques (e.g., the market approach or the income approach) for which sufficient and reliable data is available. Within level 3, the use of the market approach generally consists of using comparable market transactions, while the use of the income approach generally consists of the net present value of estimated future cash flows, adjusted as appropriate for liquidity, credit, market and/or other risk factors.

The inputs used by the General Partner in estimating the value of level 3 investments included third party engineering reserve reports, oil and gas NYMEX future prices as of the date the valuation is performed, estimated capital expenditures, estimated operating costs, and risk-adjusted discount factors based on whether the reserves are classified as proved developed producing, proved developed nonproducing or proved undeveloped. Other relevant information considered by the General Partner may include the following factors: original transaction price; recent public or private transactions in the same or similar assets, restrictions on transfer, including the Partnership's right, if any, to require registration by the issuer of the offering and sale of securities held by the Partnership under the securities laws; significant recent events affecting the issuer, including significant changes in financial condition and pending mergers and acquisitions; and all other reasonable and customary factors affecting value. The fair value measurement of level 3 investments does not include transaction costs that may have been capitalized as part of the security's cost basis. Assumptions used by the General Partner due to the lack of observable inputs may significantly impact the resulting fair value and therefore the Partnership's results of operations.

Investments may be classified as level 2 when market information becomes available, yet the investment is not traded in an active market and/or the investment is subject to transfer restrictions, or the valuation is adjusted to reflect illiquidity and/or non-transferability or other factors.

Investments in restricted securities of public companies cannot be offered for sale to the public until the Partnership complies with certain statutory requirements. The valuation of the securities by management takes into consideration the type and duration of the restriction, but in no event does the valuation exceed the listed price on a national securities exchange or the NASDAQ national market. Investments in restricted securities of public companies are generally included in level 2 of the fair value hierarchy.

Investments whose values are based on quoted market prices in active markets, and are therefore classified within level 1, generally include active listed equities. The General Partner does not adjust the

ENCAP ENERGY CAPITAL FUND VII, L.P.

NOTES TO FINANCIAL STATEMENTS

quoted price for such instruments, even in situations where the Partnership holds a large position and a sale could reasonably impact the quoted price.

The following table presents the investments carried on the Statement of Assets, Liabilities and Partners' Capital by level within the valuation hierarchy as of December 31, 2021.

	Assets at Fair Value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Investments:				
Private equity holdings	\$ -	\$ 46,861,347	\$ 10,050,000	\$ 56,911,347
Public equity securities	51,191,069	-	-	51,191,069
	<u>\$ 51,191,069</u>	<u>\$ 46,861,347</u>	<u>\$ 10,050,000</u>	<u>\$ 108,102,416</u>

The following table summarizes the valuation methodology and significant unobservable inputs used for investments that are categorized within Level 3 of the fair value hierarchy as of December 31, 2021.

Assets (at fair value)	Fair Value at December 31, 2021	Valuation Techniques	Unobservable Inputs	Range of Inputs (Weighted Average)
Investments in Equity of Privately Held Companies	\$ 6,678,000	Recent transactions approximates Fair Value	Recent transactions	N/A
	\$ 3,372,000	Income Approach	Cash flow multiple	4.0x

During the year ended December 31, 2021, there were no purchases of level 3 investments. The classification of an investment within level 3 is based upon the significance of the unobservable inputs to the overall fair value measurement.

Transfers into and out of Level 3 are recorded at the value of the assets at the beginning of the year. During the year ended December 31, 2021, the Partnership did not have any transfers between any levels of the fair value hierarchy. Because of the inherent uncertainty of valuation of these level 3 investments, those estimated values may differ significantly from values that would have been used had a ready market for the investments existed. Such differences could be material.

Concentration of Risk

As the Partnership's investments are primarily in the domestic independent oil and gas sector, revenue and profitability are dependent upon numerous factors beyond the Partnership's control, such as economic and political developments in the industry and competition from other sources of energy. The energy markets have historically been very volatile and there can be no assurance that oil and gas prices will not be subject to wide fluctuations in the future. A substantial or extended decline in oil and gas prices could have a material adverse effect on the Partnership's financial position, results of operations and cash flows.

The Partnership's investment program requires a moderate amount of diversification among its portfolio companies. Under the Partnership Agreement, the Partnership may not invest more than 15% of total commitments in any one portfolio company without consent of at least 80% of the Limited Partners. This policy may subject the Partnership to greater volatility than would usually be present in a more diversified portfolio, inasmuch as poor performance with respect to any one investment by the Partnership may expose the Partnership to a greater degree of loss than would be the case with a more broadly diversified investment program.

ENCAP ENERGY CAPITAL FUND VII, L.P.

NOTES TO FINANCIAL STATEMENTS

Most of the total commitment will be invested in privately negotiated equity and equity-related investments. Generally, there is no readily available market for such investments and, as such, the Partnership might take longer to liquidate these positions than would be the case for investments in publicly traded securities. Although these securities may be resold in privately negotiated transactions, the prices on these sales could be less than those originally paid by the Partnership. Also, issuers whose securities are not publicly traded may not be subject to public disclosure and other investor protection requirements applicable to publicly traded securities. In addition, the issuers of such privately negotiated securities are companies which typically have limited capitalization and limited operating histories, companies operating at a loss or with significant variations in operating results from period to period, companies which may need substantial additional capital to support operations and growth, and companies which may be highly leveraged. By their nature, such investments possess a high degree of business and financial risk that may result in substantial losses.

Cash and Cash Equivalents

Cash and cash equivalents consist of demand deposits and cash held in Fidelity Investments Money Market Funds Treasury Portfolio – Class I (“Fidelity money market account”), a money market fund which contains investments with weighted average maturities of three months or less. As of December 31, 2021, the Partnership has cash in its Fidelity money market account of \$1,994,567. The Partnership places its cash and cash equivalents with financial institutions and, at times, cash held in bank accounts may exceed the Federal Deposit Insurance Corporation insured limit. Cash and cash equivalents are classified as Level 1 assets and are carried at cost or amortized cost which approximates fair value.

Income and Expense

Income and expenses from the Partnership’s general operations are recognized on the accrual basis.

Investment Transactions and Related Investment Income

Investment transactions are accounted for on trade-date basis. Dividend income is recorded on the record date with the exception of dividend income from marketable securities which is recorded on the ex-dividend date.

Gains or Losses on Investments

Realized gains and losses on investments represent the difference between the original cost of the investments and the related fair value at the sale or distribution date, net of expenses, as well as write-offs. The difference between the original cost and the estimated fair value of investments, including any receivable for holdbacks, owned at the end of the period represents unrealized gains or losses.

Foreign Currency

Portfolio investments denominated in foreign currencies are translated into U.S. dollar amounts at period end. Purchases and sales of portfolio investments denominated in foreign currencies are translated into U.S. dollar amounts on the respective acquisition or disposition dates of such transactions.

Income Taxes

No provision for federal income taxes is included in the accompanying financial statements. As the Partnership is not subject to income taxation, the tax effects of its activities accrue to the individual partners.

The Partnership’s tax returns are subject to examination by federal and state taxing authorities. As of December 31, 2021, the earliest tax year that remains subject to examination under the standard limitation period is 2018. Pursuant to the Bipartisan Budget Act of 2015, for tax years beginning after December 31, 2017, if the IRS makes audit adjustments to the Partnership’s income tax returns, it (and some states) may

ENCAP ENERGY CAPITAL FUND VII, L.P.

NOTES TO FINANCIAL STATEMENTS

assess and collect any taxes (including any applicable penalties and interest) resulting from such audit adjustments directly from the Partnership. To the extent possible under the new rules, the Partnership's general partner may elect to either pay the taxes (including any applicable penalties and interest) directly to the IRS or, if eligible, issue a revised information statement to each current limited partner and former limited partner with respect to an audited and adjusted return. Although the Partnership's general partner may elect to have the limited partners take such audit adjustment into account and pay any resulting taxes (including applicable penalties or interest) in accordance with their interests in the Partnership during the tax year under audit, there can be no assurance that such election will be practical, permissible or effective in all circumstances. As a result, current limited partners may bear some or all of the tax liability resulting from such audit adjustment, even if such limited partners did not own an interest in the Partnership during the tax year under audit. If, as a result of any such audit adjustment, the Partnership is required to make payments of taxes, penalties and interest, the cash available for distribution to our limited partners might be substantially reduced. These rules are not applicable for tax years beginning on or prior to December 31, 2017.

In accordance with a provision of the FASB guidance "Income Taxes", the General Partner is required to determine whether a tax position of the Partnership is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement which could result in the Partnership recording a tax liability that would reduce partners' capital. Based on the General Partner's analysis, there are no material disclosures or adjustments impacting the Partnership's financial statements as of December 31, 2021. The Partnership does not expect that its assessment regarding unrecognized tax benefits will materially change over the next twelve months. However, the General Partner's conclusions may be subject to review and adjustment at a later date based on on-going analyses of tax laws, regulations and interpretations thereof and other factors.

NOTE 3 – INVESTMENT TRANSACTIONS:

The Partnership made equity investments in certain private entities that are primarily engaged in the acquisition, development and operation of oil and gas properties. Generally, the related limited liability company and partnership agreements provide for a specified percentage sharing of revenues and expenses until the Partnership has achieved a specified internal rate of return and return on investment. After this level of return has been achieved, the percentage-sharing ratio is adjusted to provide for an increased allocation to the management group of the investee and a decreased allocation to the Partnership.

Total contributions to and proceeds from investments are as follows:

	Year ended	
	December 31, 2021	
	Contributions	Proceeds
Private equity investment holdings:		
Red Rocks Company, LLC	\$ -	\$ 477,310
Cheyenne River, LLC	-	72,952
Malaga EF7 Holdings, LLC	-	63,184,828
Limestone II Holding Company, LLC	-	16,128
	<u>\$ -</u>	<u>\$ 63,751,218</u>

During the year ended December 31, 2021, the Partnership received royalty income from Red Rocks Company, LLC of \$477,310 that was deemed a return of capital.

ENCAP ENERGY CAPITAL FUND VII, L.P.

NOTES TO FINANCIAL STATEMENTS

In August 2021, Malaga EF7 Holdings, LLC sold the remainder of its assets and distributed cash proceeds of \$63,184,828 to the Partnership, resulting in a realized gain of \$63,184,828.

NOTE 4 – ALLOCATIONS TO PARTNERS:

The Partnership Agreement provides that net increase (decrease) in partners' capital resulting from operations associated with the Partnership is allocated 2.0% to the General Partner and 98.0% to the Limited Partners (Partners' Sharing Ratio) until such time as the Limited Partners receive an 8% internal rate of return on their investment (Preferred Return Payout). After Preferred Return Payout is achieved, the General Partner is allocated 80% of all distributions and the Partners are allocated the remaining 20% in proportion to their respective ownership percentages until such time the General Partner has been distributed 20% of total net distributions from the Partnership (Catch-Up Payout). After Catch-Up Payout is achieved, cash distributions are allocated 80% to the Partners in proportion to their ownership shares and 20% to the General Partner. Upon liquidation of the Partnership, the General Partner will be required to restore funds to the Partnership to the extent distributions are in excess of 20% of distributions made after Preferred Return Payout. Funds returned to the Partnership for this purpose will be distributed to the Limited Partners in proportion to their aggregate funded commitments.

Net increase (decrease) in partners' capital resulting from operations was allocated between the General Partner and Limited Partners in accordance with the allocation methodology described above. During the year ended December 31, 2021, net increase in partners' capital resulting from operations allocated to the General Partner and Limited Partners was \$20,220,763 and \$73,393,880, respectively, which includes an unrealized incentive allocation to the General Partner of \$18,348,470.

NOTE 5 – TRANSACTIONS WITH RELATED PARTIES:

The General Partner initially receives an annual management fee equal to 2% of partner commitments up to \$1,500,000,000 and 1.5% of partner commitments on the remaining \$1,051,020,408, payable in advance at the beginning of each quarter. The initial management fee period expires upon the earlier of (a) five years from the final closing date, (b) the date the fund is fully invested, (c) the date a subsequent fund organized by the General Partner makes its first investment or (d) the occurrence of certain other events as specified in the Partnership Agreement. After such time, the annual management fee is equal to 1.5% of the Partnership's cash investment in remaining portfolio investments reduced by amounts distributed to the extent such amounts constitute a return of capital and any write-down or write-off where the General Partner has determined that such portfolio investment will not be repaid or recouped by the Partnership. The initial management fee period for the Partnership expired as of November 15, 2010 upon EnCap Energy Capital Fund VIII, L.P.'s initial portfolio company investment. The management fee paid by the Partnership is reduced by 50% of any transaction fees received by the General Partner. The management fee constitutes full reimbursement by the Partnership to the General Partner for the General Partner's administrative expenses, including, but not limited to, salaries and wages of officers and employees of the General Partner, office rent, utilities and other general, administrative and overhead expenses. In accordance with the Partnership Agreement, amended July 28, 2017, no additional management fees are charged to the Partnership after June 30, 2017 through the remainder of the life of the Partnership.

During the year ended December 31, 2021, the Partnership reimbursed EnCap Investments L.P. ("EnCap"), an affiliate of the Partnership, \$502,166 for general and administrative expenses. At December 31, 2021, the Partnership owed \$36,551 to EnCap for general and administrative expenses.

Managing Directors of the General Partner may serve on the Board of Directors of the Partnership's underlying portfolio companies.

Pursuant to the Partnership Agreement, the Partnership has agreed to indemnify the General Partner and its affiliates against certain losses and other liabilities to which they may become subject in connection with matters arising out of or in connection with the Partnership's business and affairs. The Partnership believes that it is unlikely that it will have to make material payments under these arrangements, and no liabilities

ENCAP ENERGY CAPITAL FUND VII, L.P.

NOTES TO FINANCIAL STATEMENTS

related to these indemnifications have been recognized on the accompanying Statement of Assets, Liabilities and Partners' Capital.

NOTE 6 – CONTINGENCIES:

The Partnership's investments are subject to legal proceedings, claims, and litigation arising in the ordinary course of business. Each investee defends itself vigorously against any such claims. Although the outcome of these matters is currently not determinable, the General Partner does not expect that the ultimate costs to resolve these matters will have a material adverse effect on its financial position, results of operations, or cash flows.

NOTE 7 – FINANCIAL HIGHLIGHTS:

The following financial highlights for the year ended December 31, 2021, have been calculated in accordance with guidance provided in Accounting Standards Codification 946, "Financial Services – Investment Companies":

Net investment income ratio	<u>10.3%</u>
Expense ratios:	
Operating expenses	0.5%
Unrealized incentive allocation	<u>20.1%</u>
Operating expenses and unrealized incentive allocation ratio	<u>20.6%</u>
Internal rate of return net of incentive allocation (Inception to December 31, 2021)	<u>14.5%</u>
Internal rate of return net of incentive allocation (Inception to December 31, 2020)	<u>14.2%</u>

The net investment income and expense ratios are calculated for the Limited Partners taken as a whole. The net investment income and operating expenses ratios do not reflect the effects of the incentive allocation to the General Partner. The internal rate of return from inception is calculated based on the actual dates of the cash inflows and outflows and the residual value of the Limited Partners' capital account, net of all incentive allocations, as of each measurement date. Future realization of investments may be at different values than currently carried fair values, resulting in rates of return that may differ materially from that indicated above.

NOTE 8 – SUBSEQUENT EVENTS:

Through March 31, 2022, the date these financial statements were available for issuance, proceeds from investments of \$3,642,735 were received by the Partnership.
